

KERALA UNIVERSITY OF HEALTH SCIENCES

ACADEMIC (MEDICAL) BRANCH

No : 27954/2026/AC1/MED/A2/KUHS

Date : 30-09-2026

CIRCULAR

Sub: KUHS - Academic - Medical - Guidelines to Medical Postgraduate Students - issued.

On the recommendations of the Academic Council, University has decided to issue the following instructions:

1. The University student registration of the medical postgraduate (broad and super specialty) courses in the initial part of the course.

- The University student registration shall be completed at the time of admission or immediately after admission to a postgraduate (PG) course. It is observed that a few medical postgraduate students are not meeting the mandatory requirements for the permanent student registration with the university even on the last date of submission of the thesis synopsis/protocol.
- As a mandatory requirement, registration to Kerala State Medical Councils shall be completed without delay, and the copy of the same shall be submitted to the University within three months from the date of Post Graduate (PG) admission. Practicing without registration in the State Medical Council concerned is a violation of the existing law and existing regulations, and the attendance of such students shall be affected negatively.
- Thesis synopsis/protocol submission is mandatory for the promotion of postgraduate students to the second year of the course.

2. The University examination registration of the medical postgraduate (broad and super specialty) courses.

- For the mandatory requirement of “completion of a course in ethics, including good clinical practices and good laboratory practices, whichever is relevant to them” by a PG student, the “The Bioethics course by KUHS” is the hitherto approved course identified by the University, and the certificate issued on successful completion of such a course conducted by the University is the only approved course certificate now that can be accepted for University examination registration.

The Principals/Head of the Institutions of all affiliated medical colleges are directed to ensure strict compliance with the above guidelines.
